

Thank You...

Attn: **Board of Director of WIS International Preschool.**

Ms. Christian Pasaylo; Ms. Thu & Ms. Ngan

First and foremost, we are writing to convey our heartfelt gratitude for the incredible influence you have had on our kid and his learning. That's the answer to my question about "what English Immersion is."

At first, we were hesitant to enroll my children in this school because the teachers are Philippines though they have excellent voices and pronunciation, and English has become one of the most widely promoted languages in their country. According to the research findings, when the Philippines speak English, it is most comparable to the sounds of native English speakers in terms of vivid word utilization, natural intonation, and nuance of speaking English. Then we decide to put our child to school here because.

At WIS we are sure that our children can study, chat and interact with foreign teachers completely in English all day long. This is the ideal situation for our children to develop English naturally to compare with the first day when he studies at this school, he didn't know what English was. That's what we are expect.

Now, over our expectation that is the achievement that he can achieve that is an excellent student in his English class at weekend. He made us proud of him when his teacher called and shared that he is eligible for attending higher class even though his age has not satisfied term and conditions. It's unbelievable that he could do that.

All reasons above, we much appreciate your patience and guidance (specially Ms. Chan/ Ms Thu & Ms Ngan) every step of the way to our kid such as develop his physical; Emotions and social relationships; Create images & create art and Language & communication.

Warming best regards

Le Minh's parents.

My Nguyen
